How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER BEEN DISAPPOINTED.
As a general family remedy for Dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the Stomach and Bowels. ●

PIANOS.

GAINED FIRST PREMIUM FOR GREATEST merit at the New Orleans Cotton Centennial and WORLD'S Exposition for refined and wonderful power of tone, elegance of design, and superb finish. Only piano endorsed by United States commissioners, from each of the States. Cases finest carved, rosewood finish - finest imported double repeating action—three strings throughout of best patent steel wire—keys best ivory. Our new patent steel tuning device, instead of wood, is the greatest invention ever made in pianos. It consists of stationary STEEL tuning pins that are set in a mold and molten STEEL is run round the pins keeping them solidly in place. A thimble or shell pin is made to exactly fit the stationary pin revolving therein; thus the strings wind round the pins. After the strings are properly stretched the piano can never get out of tune, the rest plank being of STEEL, not affected by extremes of climate. This will be appreciated by all musicians in city or country. It will stand twenty years without tuning and is good for 100. No other piano has this improvement.

Great strength and durability is another advantage. In other pianos holes are bored in wooden boards and tuning pins inserted. The pins turn round in this board and cannot stand permanently in tune, and it often cracks, splits, days out, becoming utterly, totally and entirely worthless as a musical instrument. Our STEEL tuning device is in no way affected by such casualities, and the sounding board is so constructed that our pianos can never become thin or metallic in tone. They are always in tune and the expense of tunning is saved. This patent alone is worth millions and makes our piano the greatest in the world. Prices are no higher than other pianos. Buying direct from us, the largest manufacturers, you save $100 or $200—dealers' profits. Don't mind the ominous growlings of dealers and agents, who see their chances of selling a poor piano at a big profit of $200—slipping away—pity them.

We guarantee our pianos ten years, 200 styles. We have put our prices at lowest bed-rock for Cash.

A $600 Piano for $259.50; a $900 Piano for $297 50; a $1200 Piano for $375.50; a $1500 Piano for $475.50.

Upright Cabinet Grands, with stool and rubber cover shipped on board cars at S. F., to any part of the United States, Canada or Mexico. Our terms are cash with order. If not as represented money returned. We occasionally have good second-hand pianos, made over at $100 to $300, which we take in part payment for our own. Write or call for catalogue, free.

An Old Time Senator.

He comes down the street looking like an antique painted on ivory which has stepped out of the frame. His features are delicate and aquiline, with jet black eyes, which have looked the world in the face for eighty-seven years. Upon a head of wavy curls, spotlessly white, sits an antique silk hat, polished till it shines anew. The Van Dyke beard is white and curly and the snowy mustachios are artistically waxed. Around the shoulders hangs a military cape of the pattern of 1840. Under the cape is a long, black Prince Albert coat and a waistcoat of fancy stuff. His boots are small and exquisitely polished. From his watch pocket a curiously carved golden charm hangs on a black silk fob. He carries a slender gold headed cane.

His figure is light, sinewy, graceful, almost jaunty in its bearing. He stops now and then and looks around him with the wondering air of a man who is in a new and strange country. An electric street car flashes by him, and he watches it out of sight with an almost startled look in his eyes. He has a courtly salute for every lady and a smile for the bright eyed girls who bid him good day as they pass. The writer saw him at the opera the other night, carrying his ninety years as though they were but thirty. He enjoyed the music heartily, and between the acts visited the various boxes to chat with the occupants. This is Gen. George W. Jones.—Dubuque Cor. Chicago Times.

England's Torpedo Repair Shop.

The Vulcan, new torpedo depot ship, was laid down at Portsmouth in June, 1888, and was intended to be completed some time next year. She is of 6,620 tons, 12,000 horse power, and designed for a maximum speed of twenty knots. Her armament is to consist of eight 4.7-inch and twelve three-pounder quick firing guns. She is also a floating factory for the repair of torpedoes, torpedo boats and their engines. It is impossible to exaggerate her usefulness to a squadron, and it was of extreme importance that she should be got out of hand with the least possible delay.

Now I am informed that the mountings and supports of her 4.7-inch guns are considered insufficient, that they are being strengthened, and that this involves the pulling up of decks and the pulling down of cabins at the cost of much time and money. Is it Mr. White and the constructors, or Elswick and the gunners, who are to blame for this latest bit of mismanagement?—London World.

A New Dish.

The best autumnal breakfast dish that has come to the cognizance of people who know what's what is described as a compound of hashed chicken, tender green peppers and small clams. The first impression on the senses is made by a savory, stimulating perfume, which is said to be calculated to convince the most jaded reveler that he was mistaken in the miserable supposition that he "couldn't eat anything." The second assault on his appetite is made through the eye, which gradually discerns that it isn't simply a chicken hash which invites, but a glorified medley of clams, peppers and hashed chicken. The third result of contact with this new plat is effected through the sense of touch, and taste alone does it justice. Its creator is George Boldt, who, in anticipation of taking charge of the new Astor house, has recently dispatched one of his young men all through Europe to gather ideas. —New York Letter.

A Trackless Street Car.

An exhibition run of the "carette," a diminutive street car without a track, which has been in use in Chicago for several weeks, was given the other afternoon. The "carette" is light and easy in motion, and no jolting or discomfort was felt in riding in it along the part cobblestone paving of Chestnut street. It cannot run on the ordinary street car track, the distance between the wheels being greater than the car track width. It avoids delays or blockades, and stops at the curb to receive or discharge passengers. It seats twenty persons, is drawn by two horses and has a conductor and a driver. It is said to be very popular in Chicago among ladies and children.—Philadelphia Times.

An Unfinished Story.

If one Springfield baby didn't have the colic one night recently, it is because grapes agree with some infants. One of the many baby carriages that line the sidewalk while mothers are shopping was pushed against a fruit stand the other afternoon. By leaning over its occupant could just reach the purple clusters in a basket. And then one by one the grapes went down baby's throat, and just as the little one reached for another cluster mamma appeared.—Springfield Republican.

A Steam Heated Wharf.

An innovation in the method of handling green fruit at the port of New York is about to be put into practice.

The new arrangement consists of a steam heated wharf. In the past fruit has been landed on the wharf without regard to the weather, and when the temperature ranged below the freezing point great damage resulted. The heated wharf will be 50 by 150 feet in dimensions.—Philadelphia Ledger.

In the Near Future.

The time is fast approaching when the visitor to the sanctum will step in, smiling and confident, and just as she is about to say:

"Here is a little thing I have just dashed off," he will be paralyzed by a voice exclaiming in tones of thunder:

"Go back and shut the door!"—Boston Courier.

Mr. Hodgkins' Perpendicular Chicken.

Mr. Edwin Hodgkins has a curiosity at his store on Second street in the shape of a deformed chicken. The chicken walks perfectly erect, the head being perpendicular with the end of the back. The tail curls under the body. Today this chicken was seen to catch a live rat and eat it.—Cor. Atlanta Constitution.

Elopers Chased Two Thousand Miles.

One of the most thrilling elopements of modern times culminated recently at Tacoma, Wash., in the marriage of William Reno, of Milaca, Minn., and Miss Mary Ellen Reed, of Spokane Falls, Wash. Mr. Reno was a Protestant and Miss Reed was a Catholic, and her parents tried to veto the union. The young folks were determined to get married, however, and planned to meet in Ogden, Utah. But Mr. and Mrs. Reed had kept close watch of their daughter's movements, and made their appearance soon enough to prevent the marriage.

Mr. Reno and Miss Reed decided to go to San Francisco, but again the parents divined their scheme and were in San Francisco to meet the fugitive lovers when they arrived there. Finding themselves defeated the third time, the young couple quietly left San Francisco for Tacoma, where Mr. Reno's aunt gave them every assistance and went with them to a justice and saw them safely united. They traveled over 2,000 miles, but accomplished their object. They are now way back in Minnesota.—Cor. St. Louis Republic.

Eloped on a Chartered Locomotive.

Expense did not keep William C. Trudeau and Miss Beatrice Harrig from eloping to Jeffersonville Tuesday night and becoming man and wife. The couple intended to cross on the ferry, but reached the wharf some time after the last boat had gone. Delays were dangerous in the eyes of the prospective groom, and, hurrying with the young lady to Fourteenth and Main streets, after much parleying an engine was chartered to carry them over. They reached Jeffersonville about 4 o'clock, and meeting a couple of policemen asked to be shown the residence of County Clerk Stealey. Arousing him, a license was procured, and half an hour later the same couple were standing in the dimly lighted parlor of Magistrate Keigwin, who, robed in a dressing gown, made the couple one.—Louisville Courier-Journal.

Legally Dead.

The will of Micah W. Norton, the convicted murderer, sentenced to state prison for life, was filed in the probate court of Somerset county recently. He wills to his four sons a farm in Moscow containing 165 acres, two farms in Concord, a farm in New Vineyard, with timber lot and pasture adjoining; to his son Albert E. Norton he gives a farm in Solon, and to his son Carleton W. Norton a note of $200 and interest; to his son Sumner S. Norton he gives the remainder of his property, providing the son will provide for his support when requested to. He desires his five sons to share equally in the estate of his wife, Eliza. His son Sumner is appointed executor. Norton leaves an estate of $20,000 and makes his will, as when he goes to prison he is legally dead.—Augusta (Me.) Cor. Boston Herald.

A Green Skinned Man.

The strange case of a man flayed alive and afterward passing through an ordeal of unparalleled experiences has been brought to public attention at Indianapolis by the recovery of Wesley Kellar, a woodworker, who fell into a steam vat at the Indianapolis Veneer works two months ago. His flesh was cooked, and the doctors decided that there was only one chance in a thousand of having his life saved by removing the skin from his body. After two days this was done. He was peeled from head to foot. Frogs' skin was grafted on as the dead skin was removed. The operation has proved a complete success, and the man has recovered sufficiently to be able to return to work.—Cor. Chicago Tribune.

Latest Form of Rubber Pavement.

The municipal authorities of Brussels have decided to experiment on the new compound "caoutchous macadam." A portion of one of the principal boulevards of the city is being paved with this material. The compound consists of a mixture of India rubber and different kinds of stones, ground up together, and converted into a sort of cement by means of heat. The material is stated to be hard, elastic and durable, and to be unchanged by either heat or cold. It is anticipated that it will prove extremely well adapted for running tracks and lawn tennis courts.—New York Commercial Advertiser.

The present economical condition of France is considered unusually favorable by her statesmen. The harvest this year was about 120,000,000 hectoliters (100 quarts) of grain, the largest of the last decade. The export of manufactures has increased as well as the import of raw materials. Almost $500,000,000 lie in the savings banks. The railway profits have also increased.

The losses in Connecticut by the pole sweat of tobacco on account of the unusual rains in September will not be so great as was at first feared, yet many thousands of dollars will be sacrificed on account of the injury done by the pole sweat, followed by decay. Every year the hard working producers suffer more or less from the same cause.

There were sold in New York last year 1,500,000 barrels of potatoes. At 400 potatoes to the barrel, which is a moderate estimate, that amounts to 600,000,000 of potatoes eaten in New York. They come from everywhere: from Bermuda and the Gulf states to the far north and west. There were imported 50,000 barrels last year.

The banquet of the international vegetarian congress in London recently consisted of porridge, stewed and fresh fruit, eggs and lentil cutlets with tomato sauce, mushroom patties and savory sandwiches. After this official breakfast the congress held a conference advocating their ideas of food.

What is claimed to be the largest load of logs ever hauled in Santa Cruz county, Cal., was brought into Monta Vista a few days ago. It was drawn by five yoke of oxen, and included twenty-five logs that scaled 50,486 feet of lumber.

Knee Breeches and Silk Stockings.

And so knee breeches and silk stockings are to be the fashion for full dress occasions in England this winter. And why not in America as well? Long have gentlemen in society struggled to be allowed to make some distinction between their own dress and that of the waiters. But fashion or custom is inexorable. A year or two ago a very sensible society lady in New York gave a ball, at which the gentlemen were requested to appear in variously colored garments. The result was charming, a revival of the days of Louis and of the Charleses. But the fashion thus set, or attempted to be set, did not continue. Why not no one can tell.

After this one ball was over the crimson and blues and purples were laid aside and appeared no more, and their owners reappeared in their somber "claw hammers." To resume the garb of our forefathers for ordinary wear would be an absurdity, but to revive these graceful and elegant garments for dress occasions would certainly be good taste and could not be unfavorably received by the ladies. The revival of the silk stockings and breeches in English society is perhaps a forerunner of some such revolution. Already we of this country are growing sensible in the matter of summer attire; why should we not grow sensible as well in our garments for social occasions?—Boston Advertiser.

Naming Colts.

Naming colts as they are brought into the world on a big stock raising farm might seem to be a simple operation; but, just as when the parents of a dozen children find themselves short of names and have to resort to a Biblical or classical terminology, so do the owners of a lot of horses kept for the purpose of raising horses for the turf find themselves running short of names. Who has failed to notice the odd nomenclature of the race course? The proprietor of a farm and a big lot of thoroughbreds in Pennsylvania has made a rule for himself. To all the colts born in the first year, under this rule, he gave names beginning with A, in the second year B, and so on. He put the idea into practice nine years ago, and has reached the letter I. Sometimes there are queer combinations of names. For instance, a colt was named Harmony, and the next year his brother had tacked to him the name Impudence. As the breeder has fifteen colts this year to be named with names beginning with the letter I, he confesses himself puzzled to originate attractive and orotund names enough to go around.—New York Sun.

Punished for Being Honest.

John Brannon, a man bearing a good character, found a check at the Edinburgh exhibition. He could not read, and the friends to whom he showed the check advised him to keep it and look out for a reward. This he did, buying the Edinburgh papers for a month, at the end of which time he handed over the check to the police. He then got his reward.

He was prosecuted for not giving up the check within the prescribed time after finding it, and was brought before Bailie Walcot, who, although "he did not think there was any intention of theft," imposed a fine of £1, or two days' imprisonment, "it being too serious an affair for his lordship to pass by." The bailie therefore expressly finds that the man was not a thief. Why, then, the sentence? Evidently as a punishment for honesty, since if the man had destroyed the check instead of delivering it to the police he would never have got into trouble.—London Truth.

A Cool Thief.

A thief went through the Mount Vernon, O., Sanitarium the other day. He drove up to the door of the building in a buggy, hitched his horse, and went in. Soon after a lady patient entered her room and found a man there with a two foot rule measuring a window. Turning to her he said: "There seems to be only one slat broken out of that blind, and I've only found four so far in the house." He then went out and went through the other rooms, and, having completed his researches, got into his buggy and drove away. Soon after the lady who saw him in her room found that her purse, with $17, was missing, and an investigation proved that the thief had ransacked all the rooms right before the eyes of the manager and all of his assistants.—Cleveland Leader.

Suggestions to Secretary Tracy.

Secretary Tracy is selecting names for cruisers, and we suggest for his consideration Raleigh, North Carolina, or Bell, in honor of Admiral Henry Bell, of Orange county, who lost his life in Japanese waters in 1867. Admiral Bell was in Perry's expedition that opened up Japan to the commerce of the world and was engaged in the fight with the Pei-Ho forts. As we have had a Roanoke, perhaps he might like the Swannanoa.—Raleigh (N. C.) News.

The Holy Carpet in Quarantine.

"The holy carpet," which is now being brought back to Cairo, where it will have to submit to the indignity of quarantine for fifteen days, is one of those which are periodically taken to Mecca, there to be sanctified, and is made of a thick sort of silk, embroidered with letters of gold, each letter being two feet in length and one inches broad. It covers what is known as the Beat-Allah or inner sanctuary of the temple.—Paris Galignani.

A Fall in Crockery.

I was amazed by a sign that I saw the other day. It was prompted, no doubt, by the Shopkeeper's enterprise, and announced a "Great Fall of Crockery and Furnishing Goods." Crockery that had suffered a very great fall you would hardly care to buy.—Brooklyn Eagle.

If Worked.

A woman at Lafayette, Ind., wanted to rid an alcohol barrel of the odor. She dropped a live cat into the barrel, and she won't be in working order before Jan. 1. Nine-tenths of the barrel left her at once, and the remainder smashed in the windows.—Detroit Free Press.

CINCHING THE TAX-PAYER.

It was predicted in these columns some months ago when the matter of a new Hall of Records and Jail was being discussed by the Press of the county, that the cost of those edifices when they were finished and ready for occupancy would be largely in excess of the amount appropriated by the Supervisors. The tax-payers were assured by the Supervisors that the Hall of Records would cost $40,000 and a contract was let to build the edifice for that amount. At a meeting of the Supervisors, held on Wednesday of last week, that body authorized the contractor to make changes in the plans of that building at a cost of $1,654, making the total cost to date $41,654. Just how many more such changes will be made before the completion of the work the good Lord himself only knows. All who have builded houses know what alterations in the original plans and specifications means. It is there that the contractor gets in his work and makes his biggest profits, for the simple reason that he has no competitor and changes whatever he pleases. We dare say that before the Hall of Records and Jail are completed, owing to changes like the one noted above, that the cost of those edifices will exceed the contract price many thousands of dollars.

THE credentials of T. J. Geary, representative-elect from the First Congressional District to fill the vacancy occasioned by the resignation of J. J. De Haven, were presented in the House last Tuesday, and Mr. Geary took the oath of office.

H. H. Bancroft.

It is a source of pleasure and pride to Pacific Coast people to know that our own historian, Hubert Howe Bancroft, stands in the very front rank of America's distinguished literary men. That wonderful historical series, which it has taken so many years to complete, has made him famous the world over. A brilliant array of eminent scholars of Europe and America, including Herbert Spencer, Huxley, Dr. John W. Draper, Emerson, Bryant, Holmes, Howells, Wendell, Phillips, Whittier, Longfellow, Sir Arthur Helps and scores of others whose names are familiar to book-loving people, have come forward and testified to their appreciation of his genius. Diplomas and complimentary certificates from scientific and literary institutions have been showered upon him. Yale College has conferred the honorary degree of Master of Arts. That powerful and independant journal, the famous *London Times*, *The Thunderer*, devoted two whole columns to a review of Bancroft's works, and England's most dignified journals have discussed at length each separate volume as it appeared. Now comes the news that Hubert Howe Bancroft has received a number of votes for a place among the famous "Immortals," an honor that those who know what the "Immortals" are will appreciate.

A new work which the author has been engaged on for years has just appeared from Mr. Bancroft's pen. It is called "Literary Industries," and is the graphic story of a great achievement told by a master hand. The nature of the work is such that it will have a remarkable sale, especially on this coast, where many of the people mentioned are well known. The work is to be sold by subscription, and the publishers want responsible agents to receive orders. We call attention to their advertisement under Help Wanted.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

BOARD OF SUPERVISORS.

Something for the New Year.

The world renowned success of Hostetter's Stomach Bitters, and their continued popularity for over a third of a century as a stomactic, is scarcely more wonderful than the welcome that greets the annual appearance of Hostetter's Almanac. This valuable medical treatise is published by The Hostetter Company, Pittsburgh, Pa. under their own immediate supervision, employing 60 hands in that department. They are running about 11 months in the year on this work, and the issue of same for 1891 will be more than ten millions, printed in the English, German, French, Welsh, Norwegian, Swedish, Holland, Bohemian and Spanish languages. Refer to a copy of it for valuable and interesting reading concerning health, and numerous testimonials as to the efficacy of Hostetter's Stomach Bitters, amusement, varied information, astronomical calculations and chronological items, &c., which can be depended on for correctness. The almanac for 1891 can be obtained free of cost, from druggists and general country dealers in all parts of the country.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with Neuralgia and Rheumatism, his Stomach was disordered, his Liver was affected to an alarming degree, appetite fell away, and he was terrible reduced in flesh and strength. Three bottlers of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eigh years's standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large Fever sores on his leg. doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely, Sold at Ed. The people of Sonoma Valley have been enjoying a rare treat for the past two weeks in the performances of the Pawnee Medicine Company, which has been showing at Union Hall to large audiences nightly. There is much talent in this company and it is impossible to tell which artist is superior to the other, as they are all good. Dr. Chas. Burgess opens up the entertainment each evening with remarks pertaining to his medicines. His style of address is original and highly entertaining and many of our people go especially to hear this gentleman talk. The Pawnee Company gives to-night a grand performance. Let every one turn out and see for themselves how clever this company is.

THE PAWNEE COMPANY.

Their Performance To-night--Will Leave for Napa Tuesday.

The Pawnee Indian Medicine Company which has been giving entertainments at Union Hall for the past ten days have been greeted with large and appreciative audiences. The company will remain here until Tuesday morning, Dec. 16th. From here its members go to Napa, where they will remain two weeks. The good people of that town will then have an opportunity of seeing Company No. 1, which is the largest and best company on the road. To-night (Saturday) is the admission night, and after giving five free nights, our citizens will certainly show their appreciation of the Company by attending their pay night, on which occasion many new features will be introduced. The price of admission will be only 25 cents for adults and 10 cents for children. Reserved seats, with coupons, on sale at the hall. Monday night will be the last appearance of this excellent company before a Sonoma audience. The individual members of the company, during their brief stay in Sonoma, owing to their pleasing address and gentlemanly deportment, have made many friends among our people, who exceedingly regret their departure.

His Injuries Proved Fatal.

The man who was struck by the Donahue passenger train on Friday night of last week near this place, died the following morning at the Sonoma House, whither he had been taken for medical treatment. The man, who was a tramp, had nothing upon his person which would lead to his identity and was buried among the unknown dead in Mountain Cemetery. On Saturday an inquest was held by Justice Cheney and the railroad company was exonerated from all blame by the jury. It was shown that the unfortunate man had laid down alongside the track and went to sleep. That the train was rounding a curve in the road and it was impossible for the engineer to see the man until the engine was almost upon him. It is thought the man was slightly under the influence of liquor.

Shooting on Sonoma Mountain.

On Saturday last Alfred Puckett, only son of James Puckett, residing on Sonoma mountain between this place and Petaluma, was shot and dangerously wounded by another lad named Cook, residing in the same locality. The shooting was the outcome of a family fued of long standing. On the day of the shooting Puckett senior was invited by young Cook to go down to the fence on his step-father's property and see the damage that had been done by his (Puckett's) hogs. He had no sooner reached the fence when some one struck him from behind and Cook began shooting. His son Alfred came up about this juncture and seeing his father's danger started to wrest the revolver from Cook's hand and received the shot intended for his parent.

Merced Oranges.

We received yesterday a large box of fine oranges from our old Merced home. The trees from which the fruit was plucked were planted by the writer's mother over 16 years ago. For eight or ten consecutive years the orange grove was cut down by frosts, and the trees did not attain a height of more than five feet in all those years. About 7 or 8 years ago, however, they commenced to grow very rapidly and are now as tall as a large sized locust tree and are prolific bearers.

Death of a Former Resident of Sonoma.

Nicholas Long, a pioneer settler of Sonoma and well known to all old residents, died at the home of his daughter, Mrs. F. H. Larkin, in San Francisco, on Thursday of last week. Deceased was for many years a Constable at this place. He was 75 years of age, and leaves three daughters and two sons. The funeral took place in San Francisco last Sunday and was largely attended.

Wine Shipments by Clipper.

Ardell Dead.

Ardell, the man shot by Charles Worth in Cloverdale last week, died from his injuries Wednesday night at 9 o'clock. Worth, who had been admitted to bail in the sum of $3000, was thought to have left the country, but his half-brother told Deputy Sheriff Groshong that he was hiding in the hills, fearing violence from the people of the town should they see him around after Ardell's death. He also promised to take the Deputy to Worth's hiding place on the following morning. *Santa Rosa Democrat.*

The Firemen's Ball.

Quite an interest is being taken in the Rag Masquerade Ball to be given by the firemen at Union Hall on New Year's eve. We understand a contest is going on among a number of our party-going people as to who will bear off the honors for the most comical character present on that occasion. Look out for fun on the above evening.

JUSTICE CHENEY'S COURT.

Criminal Transactions the Past Year.

Following is a statement of criminal transactions in Justice Cheney's court for the eleven months ending the 30th ultimo:

No. complaints	24
Arrests on complaints	16
Convictions	10
Dismissals by the Court	4
Tried by jury and acquitted	2
Fines imposed	10
Fines paid	8
Sent to County Jail in default of payment of fine	2
Amount of fines collected	$220

These figures are given in justice to Judge Cheney and Constable Sparks, who have endeavored to do all in their power as peace officers to suppress lawlessness in our midst. We regret to say, however, had certain citizens in this town not shown a disposition to throw all the responsibility of prosecuting offenders on our officers, a different showing might have been made.

-PERSONAL AND SOCIAL.-

Otto Wegner returned from the city last Monday.

Mrs. M. Chase of San Francisco is visiting her parents Mr. and Mrs. Seipp.

Al. Latham of San Francisco was the guest of the Misses Goess last Sunday.

Mrs. Otto Muser came up from the city last week to visit relatives in Sonoma.

Mrs. Walter Rideout is lying quite ill at her home in Lorin, Alameda county.

Geo. Zane of Glen Ellen has been quite ill for several days but now is convalescent.

Dr. Chas. Burgess will deliver a free lecture at Union Hall to ladies only this afternoon.

Don't forget to call at Schocken's fine large store for Christmas novelties. Cheap for cash.

Mr. and Mrs. Geo. Porter went to San Francisco Tuesday morning, where they will reside temporarily.

A. Goess and his friend Mr. Rusmus spent the past week visiting relatives near Agua Caliente.

Mrs. C. W. Engelbert, after a visit of five days with friends in the city, returned to her home Thursday evening.

Ed. Wegner went to San Francisco Thursday morning. While in the city he purchased some fine holiday attractions.

L. Litzius dropped in to "see us" the other day. We were "at home" "excloosively" to the gentleman during his brief stay.

Mrs. Millie Bates went to San Francisco last Saturday and attended the funeral of the late Nicholas Long, which took place the following day.

Frank Weiler Estate.

A. F. Pauli, G. W. Sparks and John Skinner have been appointed appraisers of the estate of Frank B. Weiler. Letters of administration has been issued to H. C. Culbertson, brother-in-law of deceased.

Everything Else Failed.

I am now 28 years old, and from the time I was seven years of age until 1885, I suffered with a severe case of Scrotula. During this time I took every known remedy, but to no purpose. My father took me to North Carolina, where I was put under the treatment of an eminent physician. The medicines given me had only a temporary effect, for shortly after my return the Scrofula broke out in a more malignant form, and I was worse off than ever before. In 1885 I discontinued taking all other medicines and commenced taking Swift's Specific (S. S. S.) I took a number of bottles and it cured me. I have been free from Scrofula from that time until now.

Restored Her Health.

For 25 years I suffered from Boils, Erysipelas and other blood affections, taking during that time great quantities of different medicines without deriving any perceptible relief. Friends induced me to try Swift's Specific (S. S. S.) It improved me from the start, and after taking several bottles restored my health as far as I could hope for at my age, which is now 75 years. IN LOVING REMEMBERANCE OF JOHN TIVNEN.

Died, November 19th, 1890.

A precious one from us has gone,
A voice we loved is stilled;
A place is vacant in our home,
Which never can be filled.

God in His wisdom has recalled,
The boon His love had given;
And though the body moulders here,
The soul is safe in Heaven.

Scarcity of Fruit in France.

French journals lament that unfavorable weather has almost altogether deprived the country of fruit this year. A disastrous amount of rain has so afflicted the central, northern, western and southwestern districts that the markets have been almost bare of fruit except such as had come from the south. One correspondent, writing from the department of the Seine-et-Marne, says: "We have had neither cherries nor apricots nor plums; apples have been greatly injured by hail; pears have suffered less, but our grapes will not ripen."

And another, writing from Brittany, says that there the pears are all spoiled, apples are lacking in many localities, and almost all the plums had perished; that peaches are everywhere non-existent; that gooseberries and raspberries had been relatively scanty, and that, although strawberries had been quite plentiful, they "had only the form of the fruit with the taste of water." Meanwhile the complaints of excessive drought have been coming in from the south, where we are told even in the carefully watered gardens the trees and shrubs had faded and withered. Near the coast the moist sea breezes "assure the abundance of the grape crop," but further north the grape growers are reported to be in despair over the persistent dryness.

Parental Gloom in Our Homes.

Boys and girls are often spoiled by parental gloom. The father never unbends. The mother's rheumatism hurts so she does not see how little Maggie can ever laugh. Childish curiosity is denounced as impertinence. The parlor is a parliament, and everything in everlasting order. Balls and tops in that house are a nuisance, and the pap that the boy is expected most to relish is geometry, a little sweetened with the chalk of blackboards. For cheerful reading the father would recommend "Young's Night Thoughts," and Hervey's "Meditations Among the Tombs."

At the first chance the boy will break loose. With one grand leap he will clear the catechisms; he will burst away into all riotous living. He will be so glad to get out of Egypt that he will jump into the Red sea. The hardest colts to catch are those that have a long while been locked up. Restraints are necessary, but there must be some outlet. Too high a dam will overflow all the meadows.—Rev. T. De Witt Talmage.

A New Type of Gun.

William T. Chamberlain, of Norwich, has invented and perfected a gun which promises to be the most durable, simple and effectual gun ever made. It is called the electric hydrogen gun. There are three methods of firing the arm. By the first method Mr. Chamberlain claims the projectile is sent from the gun by a pressure equal to 37,000 atmospheres; by the second process by four times that force, and by the third method it is transformed into an air gun with a pressure of from 1,500 to 2,000 pounds. The gun is simple, without other machinery than the chamber and barrel. The demand for new and valuable weapons is so large that some of the great powers may find in this arm the executor they have been anticipating, while Mr. Chamberlain may find in it the fortune the shadow of which has kept his brain active and his hands busy for many a day.—Norwich (Conn.) Bulletin.

They Are Glad to Know Him Now.

A New Yorker of very limited means recently got a bequest, the news of which was printed in the papers. As soon as the fact became known he got heavy mails that brought him letters from all kinds of charitable societies in need of aid, and from a host of the sufferers by impecuniosity. He also found more callers at his house than there ever before had been knockers at his door, and he likewise enjoyed when in the streets the sight of many more smiling faces than he had previously been acquainted with. Never until this month had he realized the attractive power of the mighty $. He now finds that his deceased bachelor uncle, who left him a bequest, has endowed him with something else not set down in the last will, to wit, cynicism.—New York Sun.

The Parnellite business cost The London Times exactly £180,000. The shareholders of the paper were compelled to forego their dividends for the last year and for the first six months of this year in order to pay it. John Walter owns sixteen shares, and his loss was £43,000, the dividend on each share being £3,000. The circulation of the paper and its receipts for advertisements are constantly increasing.—Chicago Herald.

Sport in California is illustrated by the following from a local paper: "Ben Smith, a farmer of Coos Bay, saw a large buck in his field the other day, and he went after it. By the time Smith reached the brush he found a big panther eating the buck. Smith killed the panther and took the deer to his house."

There was lately landed in San Francisco a freak worth mentioning in the shape of a coal black mare from Australia that is utterly and absolutely without a single hair, having not so much as mane or tail. In all other respects she is a model of the equine race.

At the recent meeting of the American Street Railway association the belief was expressed that it was the last convention at which horse traction would ever receive serious consideration, as electricity in one form or another was bound to replace the horses.

For a considerable time Mr. Isbell, of Rivera, Cal., has been troubled by bees, which took possession of the upper part of his house. A few days ago he had them cleared out, and gathered 6,000 pounds of choice honey.

An Austrian has invented an instrument resembling a piano in appearance which contains six violins, two violas and two violoncellos, and is manipulated by a keyboard.

HEALTHFUL EXERCISE.

Only a few months ago these romping, rosy-cheeked lasses were puny, delicate, pale, sickly girls. By the aid of Dr. Pierce's world-famed Favorite Prescription, they have blossomed out into beautiful, plump, hale, hearty, strong young women.

"Favorite Prescription" is an invigorating, restorative tonic and as a regulator and promoter of functional action at that critical period of change from girlhood to womanhood, it is a perfectly safe remedial agent, and can produce only good results. It is carefully compounded, by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in any condition of the system. It imparts strength to the whole system. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic. It is the only medicine for women, sold by druggists, *under a positive guarantee* from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been faithfully carried out for many years.

And the best lamp ever made, like Aladdin's of old, a "wonderful lamp!" A lamp absolutely non-explosive and unbreakable, which gives a clear, soft, brilliant white light of 85 *candle power!* Purer and brighter than gas light, softer than electric light, more cheerful than either! That lamp is

"The Rochester."

And with it there is no smoke, no smell, *no broken chimneys*, no flickering, no sweating, no climbing up of the flame, no "tantrums" nor annoyance of any kind, and it never needs trimming. Its founts (oil reservoirs) being tough rolled seamless brass, with central draft, it is absolutely unbreakable, and as *safe as a tallow candle.*

Only five years old, and *over two million of these lamps in use.* It must be a GOOD lamp to make such a telling success. Indeed it is, for lamps may come and lamps may go, but the "Rochester" shines on forever! We make over 2,000 artistic varieties,—Hanging and Table Lamps, Banquet, Study, Vase and Piano Lamps,—every kind, in Bronze, Porcelain, Brass, Nickel and Black Wrought Iron. Ask the lamp dealer for it. Look for the trade-mark stamp: "THE ROCHESTER." "Hello! Tom. Glad to see you, old fellow! It's almost ten years since we were married. Sit down: let's have an experience meeting. How's the wife?"

"Oh! she's so-so, same as usual,—always wanting something I can't afford."

"Well, we all want something more than we've got. Don't you?"

"Yes: but I guess 'want will be my master.' I started to keep down expenses; and now Lil says I'm 'mean,' and she's tired of saving and never having anything to show for it. I saw your wife down street, and she looked as happy as a queen!"

"I think she is; and we are economical, too,—have to be. My wife can make a little go further than anyone I ever knew, yet she's always surprising me with some dainty contrivance that adds to the comfort and beauty of our little home, and she's always 'merry as a lark.' When I ask how she manages it, she always laughs and says: 'Oh! that's my secret!' But I think I've discovered her 'secret.' When we married, we both knew we should have to be very careful, but she made one condition: she would have her Magazine. And she was right! I wouldn't do without it myself for double the subscription price. We read it together, from the title-page to the last word: the stories keep our hearts young; the synopsis of important events and scientific matters keeps me posted so that I can talk understandingly of what is going on; my wife is always trying some new idea from the household department; she makes all her dresses and those for the children, and she gets all her patterns for nothing, with the Magazine; and we saved Joe when he was so sick with the croup, by doing just as directed in the Sanitarian Department. But I can't tell you half!"

"What wonderful Magazine is it?"

"Demorest's Family Magazine, and—"

"What! Why that's what Lil wanted so bad, and I told her it was an extravagance."

"Well, my friend, that's where you made a grand mistake, and one you'd better rectify as soon as you can. I'll take your 'sub.' right here, on my wife's account: she's bound to have a china tea-set in time for our tin wedding next month. My gold watch was the premium I got for getting up a club. Here's a copy, with the new Premium List for clubs,—the biggest thing out! If you don't see in it what you want, you've only to write to the publisher and tell him what you want, whether it is a tack-hammer or a new carriage, and he will make special terms for you, either for a club, or for part cash. Better subscribe right off and surprise Mrs. Tom. Only $2.00 a year—will save fifty times that in six months. Or send 10 cents direct to the publisher, W. Jennings Demorest, 15 East 14th Street, New York, for a specimen copy containing the Premium List."
